

MSSP Via. Excelium CSCC

Your trusted partner in
Managed Cyber Security

Introduction

Building on our experience delivering high-assurance cybersecurity services to government and critical infrastructure sectors, Excelium provides a tailored managed service offering for private industry and small to medium-sized enterprises (SMEs) as well as government organisations seeking a single provider to support them with all their needs.

This service line enables organisations to meet cybersecurity obligations (e.g. Essential Eight Maturity Level 2, ISO 27001, CMMC Level 2) without the cost and complexity of building a full internal security function.

All services are coordinated through the Excelium Cyber Security Coordination Centre (CSCC), which acts as a unified command hub for managed services. The CSCC ensures integrated delivery, rapid mobilisation, and access to trusted SOC/SIEM partners, combining proactive monitoring with strategic oversight.

Compliance Uplift Projects

- Fixed-price, outcome focused engagements to align organisations with E8 ML2-3, ISO 27001, DISP, or CMMC Level 2.
- Structured assessment, gap analysis, and uplift roadmap delivery.
- Independent validation of readiness for audits and certification.

CISO, Security Officer (SO), and ITSA-as-a-Service

- Fractional access to experienced cyber leaders for governance, compliance, and executive reporting.
- Acting as the designated accountable officer for cyber risk within regulatory frameworks.
- Advising Boards and Executives on security posture and resilience planning.

Relationship-Driven Delivery

- Embedded as a trusted partner rather than a transactional vendor.
- Agility and responsiveness to adapt service levels to evolving business needs.
- Continuous improvement loops informed by threat intelligence and client feedback.

Membership-Based Advisory Support

- Flexible, subscription-style support providing ongoing access to cyber experts.
- Scalable engagement for SMEs unsure of where to begin, building maturity at a manageable pace.
- Access to curated toolkits, guidance, and on-demand advisory sessions.

Outcome-Focused Benefits

- Scalable and cost-effective security aligned with industry frameworks.
- High-assurance delivery backed by government-grade disciplines.
- Access to a coordinated blend of strategic consulting, compliance uplift, offensive testing, and SOC/SIEM monitoring through a single, unified model.

SOC / SIEM Integration (via Trusted Partners)

- 24/7 monitoring and threat detection using leading SOC/SIEM platforms.
- Integration of monitoring outputs into CSCC workflows for coordinated response.
- Threat hunting, log correlation, and incident escalation in partnership with trusted providers.
- Splunk - Sentinel - Elastic

Rapid Response & Incident Management

- CSCC-led coordination for containment, investigation, and recovery following a cyber event.
- Liaison with external regulators, insurers, and law enforcement where required.
- Post-incident analysis and improvement planning.

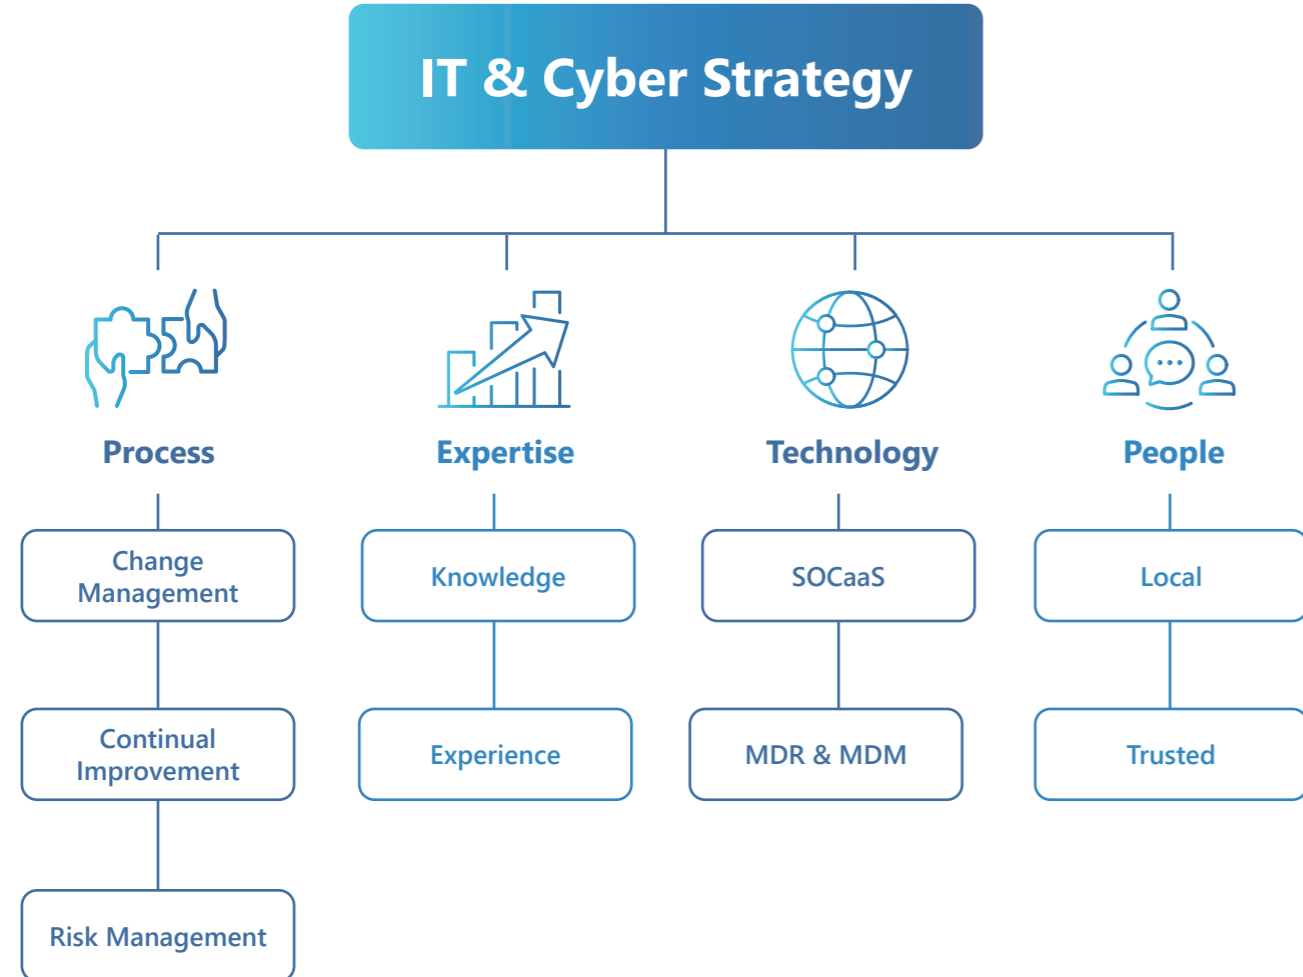

MSSP Via Excelium
Cyber Security
Coordination Centre –
Streamlining access to
comprehensive cyber
security expertise.

What we solve

- Lower barrier for entry for Cyber Security expertise (by leveraging the CSCC, they get access to CISO and ITSA level, at a fraction of the cost)
- Essential 8 Maturity Level 2
- Navigating the confusing DISP Application
- ISO27001 readiness
- Difficulty translating policy and frameworks into implementable actions

For small to medium businesses.

Capabilities development

Our experience

Lucid Consulting

Excelium provides ongoing cybersecurity support to Lucid Consulting, a large engineering firm, through a dedicated ITSA and specialist engineers. As DISP members, Lucid are required to adhere to E8 - ML2. The CSCC developed and delivered a tailored cybersecurity strategy improving governance, culture, and resilience, ensuring DISP compliance, reducing risk, and strengthening Lucid's overall security posture.

Raiders Group

Excelium supports the Raiders Group through its Cyber Security Coordination Centre (CSCC), delivering a managed cybersecurity service that enhances resilience, aligns with ISO 27001, and applies CIS Benchmarks. By strengthening defences, uplifting governance, and providing on-demand expertise, the CSCC improved security awareness, reduced risk, and delivered measurable outcomes - including incident prevention and lowered cybersecurity insurance premiums.

ClubsACT

Excelium, as the preferred cybersecurity provider for ClubsACT, delivers tailored cybersecurity support, training, and vulnerability scans to member clubs across the ACT and NSW. Through ongoing partnerships, conference briefings, and expert guidance, Excelium strengthens local club resilience, raises cyber maturity, and provides trusted, accessible cybersecurity expertise to the broader ClubsACT community.
